CONGRATULATIONS TO THE ICN NP/APN NETWORK ON

25 YEARS OF SHAPING ADVANCED PRACTICE NURSING

*Vanderbilt University School of Nursing is proud to serve as host
for the 14th ICN NP/APN Network Conference. Thank you for joining us
in our hometown of Nashville, Tennessee.*

Welcome to the

2026 ICN NP/APN Network Conference

Dear Colleague,

The Vanderbilt University School of Nursing is pleased to welcome you to the 14th International Council of Nurses (ICN) Nurse Practitioner/Advanced Practice Nurse Network Conference. This special conference marks the 25th Anniversary of the ICN Nurse Practitioner/Advanced Practice Nurse Network and is about more than CE, it's about strengthening the global APN community, building collaborations across countries, sharing ideas that improve care, and advancing the future of advanced practice nursing together. Thank you to the American Nurses Association and our many generous sponsors for your support!

With hundreds of podium and poster presentations from APN leaders around the world you can tailor your schedule to align with your clinical interests, earn significant continuing education (CE) credit, and still have time to connect with colleagues, mentors and friends.

Enjoy the Opening General Session featuring keynote speaker, Tadele Worku, who is a highly sought-after conference speaker, Executive Coach and Musician. Worku energizes audiences with presentations that merge storytelling, purpose-driven insight, and soul-inspiring music.

Don't miss Opening Reception & 25th Anniversary Celebration featuring refreshments, wine, hors d'oeuvres, and Tennessee-inspired culinary specialties or the Night Out at Vanderbilt with dancing, food, music, and networking overlooking Vanderbilt's newest football stadium.

On behalf of the Vanderbilt University School of Nursing and the ICN NP/APN Network, I hope you enjoy your time in Nashville. Please use the #NPAPN2026 #ICN2026 hashtag to share your experience with colleagues as you hear new perspectives and make cherished memories from our time together.

Respectfully,

April N. Kapu, DNP, APRN, ACNP-BC, FAANP, FCCM, FAAN

SCIENCE BASED NUTRITION

Setting the Standard of Objectivity in
Nutritional Healthcare

ONE REPORT TOTAL CLARITY

Today's healthcare providers have access to more testing than ever before. The challenge isn't gathering data—it's making sense of it all.

Science Based Nutrition®'s patented analysis system combines results from multiple laboratory sources and integrates the patient's history, medications, side effects, and nutrients depleted by the drugs, into one comprehensive nutritional assessment, helping busy providers identify patterns and priorities that may be easily missed.

The **SBN** analysis generates a personalized report of analysis, dietary and supplement recommendations with clinical insights in an easy-to-read color-coded report.

The result is a clearer understanding of patient health, more informed decision-making, and actionable recommendations that support better outcomes.

Our System Offers:

Advanced Electronic Analysis

Integrated with LabCorp® & Quest® for effortless syncing and minimal manual entry.

Recommended Testing Report

Auto-generated from each patient's Symptom Survey to guide precise test selection.

Diet & Supplement Recommendations

Personalized plans tailored to your patient's needs, including clear dosages.

Comparative Analysis

Easily track progress and adjust care plans with confidence.
